**About the Author**

Romanian-born French dramatist Eugène Ionesco (1909–1994) began his career with a one-act “antiplay” *La Cantatrice chauve* (1949; *The Bald Soprano*) that inspired a revolution in dramatic techniques and helped inaugurate the Theatre of the Absurd.

Ionesco was taken to France as an infant but returned to Romania in 1925. After obtaining a degree in French at the University of Bucharest, he worked for a doctorate in Paris (1939), where, after 1945, he made his home. While working as a proofreader, he decided to learn English; the formal, stilted commonplaces of his textbook inspired the masterly catalog of senseless platitudes that constitutes *The Bald Soprano*. In its most famous scene, two strangers—who are exchanging banalities about traveling, where they live, and how many children they have—stumble upon the astonishing discovery that they are indeed man and wife; it is a brilliant example of Ionesco’s recurrent themes of self-estrangement and the difficulty of communication.

In rapid succession Ionesco wrote a number of plays, all developing the “antilogical” ideas of *The Bald Soprano*; these included brief and violently irrational sketches and also a series of more elaborate one-act plays in which many of his later themes—especially the fear and horror of death—begin to make their appearance. Among them, *La Leçon* (1951; *The Lesson*), *Les Chaises* (1952; *The Chairs*), and *Le Nouveau Locataire* (1955; *The New Tenant*) stand out.

After these successes, Ionesco mastered the full-length play with *Amédée* (1954), *Tueur sans gages* (1959; *The Killer*), and *Le Rhinocéros* (1959; *Rhinoceros*) before creating his masterpiece *Le Roi se meurt* (1962; *Exit the King*). The character of Bérenger recurs throughout Ionesco’s work as a semi-autobiographical figure expressing the author’s wonderment and anguish at the strangeness of reality. *Rhinoceros*, produced by City Garage earlier this year, represents Ionesco’s most forceful expression of the horrors of orthodoxy, as Berenger watches his friends turn into rhinoceroses one by one, until he alone stands unchanged against the relentless tide of conformity.

Ionesco’s primary achievement lies in having popularized a wide variety of nonrepresentational and surrealistic techniques and in having made them acceptable to audiences conditioned to naturalistic conventions in the theatre. As Ionesco aged, he grew less concerned with witty intellectual paradox and more interested in dreams, visions, and exploration of the subconscious; Ionesco’s final completed full-length play, *Voyage chez les morts* (1980, *Journeys among the Dead*), exemplified this tendency. It had its U.S. premier at City Garage in 1999.

But the common thread uniting all his plays is that they build on bizarrely illogical or fantastic situations using such devices as the humorous multiplication of objects on stage until they overwhelm the actors. The clichés and tedious maxims of polite conversation surface in improbable or inappropriate contexts to expose the deadening futility of most human communication. His plays continue to effectively dramatize the absurdity and meaninglessness of social conventions as they expose the futile and mechanical nature of modern civilization.
